

**Schoolwires**® provides strategic online communication, community-management and productivity solutions that result in stronger school communities, more effective schools and greater student success. Our suite of online solutions transform the way administrators, teachers, families, senior citizens and the media communicate, collaborate and come together around school and student success. These solutions include **Centricity**™, the first and only strategic solution for connecting K-12 communities; **Synergy**™, a digital file sharing solution; **Assist**™, a service request solution; and **Share**™, an online client community and support center. **Schoolwires** gives you the power to inform, engage and energize your connected communities.

### WEBSITE AND COMMUNITY MANAGEMENT

**Schoolwires Centricity**™ is the first and only strategic solution for connected communities. It's an all-in-one, user-centric solution for web-based content, community and collaboration that puts each and all district constituents on the same page, ensuring that everyone in the connected community gets access to the information, resources and people they need.

### SERVICE REQUEST MANAGEMENT

**Schoolwires Synergy**™ provides a web-based, centralized and secure solution for accessing and sharing content such as documents, files and presentations. Administrators, teachers and students can store, organize and share files at any time from anywhere. **Synergy** helps your district stakeholders connect and collaborate while keeping their important information safe, organized and accessible. They'll never have to worry about losing or forgetting their work again.

### WORK ORDER MANAGEMENT

**Schoolwires Assist**™ provides a more efficient, fully web-based process for requesting, tracking and fulfilling service requests—from a simple light bulb replacement to troubleshooting a computer problem—all without the need to purchase additional modules. With just one system, one interface and one database, **Assist** automates workflow to improve productivity and allow anyone involved in the support process to easily monitor and track service status online. **Assist** helps your district save time, eliminate paperwork, reduce costs and increase responsiveness.

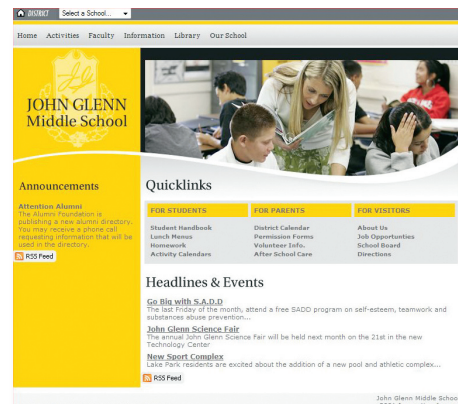

### CLIENT COMMUNITY AND SUPPORT

**Schoolwires Share**™ is an online client community and support center from **Schoolwires**. **Schoolwires Share** represents the coming together of all the services clients are used to—FAQs, training, documentation and help and support—plus access to the new exclusive online client clubhouse, **ClubSchoolio**™. The clubhouse enables educators—including administrators, teachers and IT personnel—to network and share content and best practices.

“Our partnership with **Schoolwires** has positively changed our school district's position within the community.”

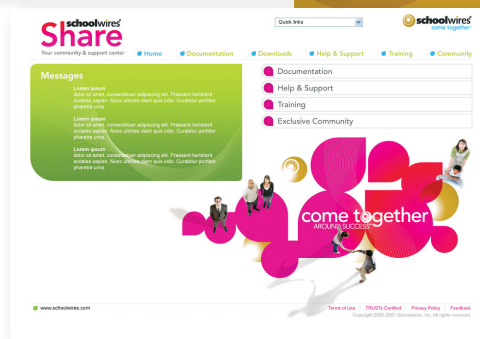

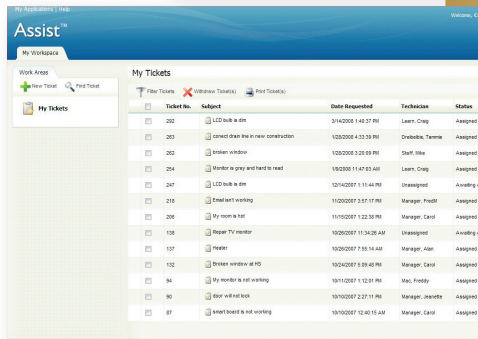

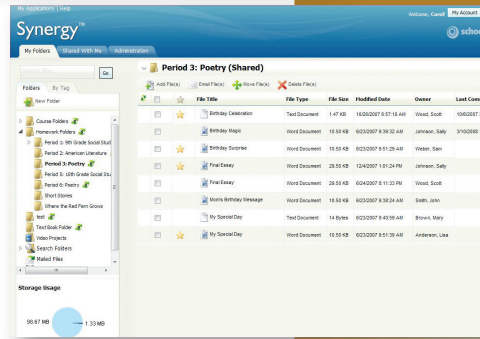

Robin Smith,  
Educational Technology  
Specialist,  
Hollidaysburg Area  
School District, PA

**Schoolwires** provides strategic solutions for connecting K-12 communities.
